## P60 & P90 PUTTERS

- The P60 series straight midsize profile reduces wrist impact and improves grip pressure which is suitable for those seeking a repeatable and confident putting stroke. Constructed with a multi-layer EPS Foam compound core with a carbon weave surface which provides an exceptional feel.
- The P90 left-hand portion of the grip is designed to provide a superior feeling of connection by increasing the curve angle to the maximum allowed by the rules of golf. Constructed with a multi-layer elastomer compound core with a precision feedback carbon weave surface which is slightly less tapered from the hand to the tip to achieve a consistently steady and stable stroke.
- P60: 60g, .580 Core
- P90: 90g, .580 Core
